DETAILED ACTION

Specification

1. The applicant has attempted to submitted a Substitute Specification, however, all the requirements for submitting a substitute specification have not been met.

A.) The applicant must submit a statement stating that the substitute specification "contains no new matter". "New matter" means any additional statement or changes that do not have support in the original specification or drawings or claims.

B.) The applicant submitted the marked up copy of the specification showing the amendments to be made, but a "clean" copy was not submitted. A "clean copy" is a copy of the specification with the amendments already typed therein. For example, if the marked up copy of the specification showed a sentence such as: "The Fresnel zone plates are moved." The 'clean copy' of the specification would show the sentence without the underlining: "The Fresnel zone plates are moved." Re-type the entire specification in "clean copy" form.

Correction is required.

Claim Objections

2. Claim 19 is objected to because it is dependent on cancelled Claim 18. Correct Claim 19 so that it depends from an earlier Claim, such as Claim 17 and the claim will be allowable.

Correction is required.

Allowable Subject Matter

3. Claims 1 – 3, 6 - 9, 13, 17, 18, 22, 24, 27 – 31, 36 – 37, 39 – 40, 42, 45, 46, 48, 49, 51, 53 and 54 are allowed.

Conclusion

4. This application is in condition for allowance except for the following formal matters:

See paragraphs 1 and 2.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
